

## Type "L-P"

| Item number | Wire section (mm <sup>2</sup> ) | Wire section thin wires (mm <sup>2</sup> ) |
|-------------|---------------------------------|--------------------------------------------|
| L03-P       | 0.25 - 1.5                      | 0.25 - 1.5                                 |
| L06-P       | 1.5 - 2.5                       | 1.5 - 2.5                                  |
| L1-P        | 4 - 6                           | 4 - 6                                      |
| L2-P        | 10                              | 10                                         |
| L3-P        | 16                              | 16                                         |
| L5-P        | 25                              | 25                                         |
| L7-P        | 35                              | 25 - 35                                    |
| L10-P       | 50                              | 35 - 50                                    |
| L14-P       | 70                              | 50 - 70                                    |
| L19-P       | 95                              | 70 - 95                                    |
| L24-P       | 120                             | 95 - 120                                   |
| L30-P       | 150                             | 120 - 150                                  |
| L37-P       | 185                             | 150 - 185                                  |
| L48-P       | 240                             | 185 - 240                                  |
| L60-P       | 300                             | 240 - 300                                  |
