

## Type "L-T"

| Item number | Wire section (mm <sup>2</sup> ) | Wire section thin wires (mm <sup>2</sup> ) |
|-------------|---------------------------------|--------------------------------------------|
| L4-T        | 4                               | 4                                          |
| L6-T        | 4 - 6                           | 4 - 6                                      |
| L10-T       | 10                              | 10                                         |
| L16-T       | 16                              | 16                                         |
| L25-T       | 25                              | 25                                         |
| L35-T       | 35                              | 25                                         |
| L50-T       | 50                              | 35                                         |
| L70-T       | 70                              | 50                                         |
| L95-T       | 95                              | 70                                         |
| L120-T      | 120                             | 95                                         |
| L150-T      | 150                             | 120                                        |
| L185-T      | 185                             | 150                                        |
| L240-T      | 240                             | 185                                        |
| L300-T      | 300                             | 240                                        |
| L400-T      | 400                             | 300                                        |
